Completion Date: ongoing  
Project Fee: \$40,000

**SERVICES PROVIDED**

- ▶ Comprehensive Plan Amendment Reviews
- ▶ Alternative Transportation Impact Fee Studies
- ▶ Data Collection
- ▶ Public Involvement

Under this continuing contract, LTEC has been responsible for performing reviews of Comprehensive Plan Amendments, Transportation Facilities Analysis, Transportation Concurrency Management System studies and Alternative Transportation Impact Fee studies. Additionally, LTEC has completed several Traffic Calming studies for specific neighborhoods in Oviedo.

LTEC has demonstrated an ability to respond quickly and effectively to staff needs. Through this contract, LTEC has provided extensive services to both the Planning and Public Works Departments for the City of Oviedo.

The tasks completed for the Planning Department has involved, primarily, the review of traffic impact studies and comprehensive plan studies and comprehensive plan amendments. The reviews have allowed LTEC to draw on the firm's strong background and expertise in traffic data evaluation, detailed traffic operations analysis (including traffic signal operations), and travel forecast modeling. LTEC has consistently completed these reviews in a timely manner in order to meet the varying City Council hearing schedule demands.

LTEC is also currently completing multi-stage evaluations of traffic concerns within two (2) neighborhoods. The studies have involved extensive traffic data collection, including route surveys. Important stages have involved conducting public information / input meetings to obtain comments and concerns from residents. Both City Staff and elected officials have been pleased with LTEC's performance and public response associated with these studies.
